- Camera ready means that the ad is ready for printing, with no further work needed. Please submit in .pdf, .psd, .psp, .tiff, or .jpg format at 300 dpi.
- Sketch ad out in Word, and DO NOT embed/insert photos. Instead use placeholder (name of photo) for photo placement. DO NOT include hypertext links or use text boxes.
- Identify the fonts you have used, and mail a printed copy in case the font needs to be matched. I'll do the best I can.
- Make sure you identify your photos well.
- All photos must be scanned & saved at 300 dpi. Save as .tiff, .psd, or .psp ONLY.
- Please note: Good digital images are preferred, but .jpg images from digital cameras may NOT reproduce well. While they will be accepted, you need to understand up front that your image quality, and therefore print quality, may be compromised. Check you camera directions - you want high resolution images.
